Provide a basic description of goods/services to be provided:

The purchase of two Licox Monitors for use in the Neurosciences Intensive Care Unit. This is currently a product already in place/existing in the unit for use and are requiring additional upgraded units to be purchased.

Intended use of/reason for purchase:

This monitor is to be used at the bedside for real time data collection of partial brain tissue oxygenation monitoring (PbtO2) and brain temperature monitoring. This monitor is used with the Licox probes and is placed in the Hummingbird bolt for invasive brain monitoring.

II. BASIS FOR IDENTIFYING VENDOR AS SOLE SOURCE PROCUREMENT. Choose Applicable Box(es) and Provide Detailed Information:

☐ PROPRIETARY. Item, technology, or service is proprietary and available ONLY from the proposed vendor.

☒ COMPATIBLE. Desired purchase must be compatible with existing item, technology or service.

This product is compatible with the bedside monitors. It is the only monitor able to be used with the current Licox probes that are currently in use in the Neuroscience ICU and is the only monitor able to provide current invasive brain temperature monitoring.

☐ RENEWAL. Support, maintenance, software subscription, technology or other intellectual property must be

UNMH Proposed Sole Source Form – Rev 7/30/14
III. SUPPLEMENTAL DETAILS. Please Provide Additional Information As Requested Below:

Describe the unique capabilities of the proposed vendor's goods, services, or personnel performing the work and substantial risks that could not be overcome without purchase.

The current Licox monitors in use in the Neurosciences ICU are no longer being made and serviced by the company. We are requiring upgraded versions of the monitor that can be serviced. With the ever growing number of TBI's and strokes in our current population the need for an advanced neuro monitor is a must for the Neurosciences ICU right now.

Identify other vendors or sources and the reason they were found to be unsatisfactory for providing the goods, services, or personnel performing the work.

No other vendors were contacted because they are unable to satisfy our brain oxygenation monitoring needs. Products from other companies can collect brain oxygenation and temperature data but they are not compatible with the current brain oxygenation probes in use.

IV. DEPARTMENT APPROVAL.

By signing below, the department certifies that the information submitted on this form has been reviewed and this purchase has departmental approval. The final determination of Sole Source approval shall be made by the Purchasing Department.
