<tr>
<td>Proposed Vendor</td>
<td>L-3 Applied Technologies Inc</td>
<td>Amount</td>
<td>$83876.28</td>
</tr>
</tbody>
</table>

Buyer Team - See Commodity list at [http://www.unm.edu/~purch/commcodes.pdf](http://www.unm.edu/~purch/commcodes.pdf)

Provide a basic description of goods/services to be provided:

To repair the flash Xray system to allow for testing of the radiation effects

Why is this purchase needed?

Research the corresponds to the award

II. BASIS FOR SOLE SOURCE PROCUREMENT. CHOOSE APPLICABLE BOX(ES) AND PROVIDE ADDITIONAL INFORMATION, AS REQUESTED:

- [ ] Proprietary item, technology or service only available from the proposed vendor. (Check box and describe proprietary component)

- [ ] Compatibility requirement with existing item, technology or service. (Check box and describe compatibility requirement)
☐ Renewal of support/maintenance/subscription of software, technology or other intellectual property. (Check box and describe)

☐ Other Basis for Sole Source: Please describe below:

III. SUPPLEMENTAL DETAILS. PLEASE PROVIDE ADDITIONAL INFORMATION AS REQUESTED BELOW:

Describe in detail the unique capabilities of the proposed vendor’s goods/service and/or personnel performing the work and why this constitutes the only source. Focus on what is unique about the goods/service and why no other vendor could meet your needs.

This equipment item is a component that attaches to an existing Air Force Research Laboratory (AFRL) system. The additional capability will allow us to be able to do the research in the contract. The equipment will become a permanent part of the AFRL larger system. We will transfer possession of the equipment immediately to the Air Force using an AF Form 1297 hand receipt, where they would take possession immediately upon arrival of the equipment item. This is the first phase of repair for the flash x-ray (FXR) system where we perform radiation testing for this contract. This FXR system was built in the late 1960s. The original company that built it has now gone out of business. L3 is the only company in the US that still works on these legacy systems. They have repaired the ones in Los Alamos and thus have now gotten the blueprints and schematics correct for this 60 year old system so they are now considered the only company in the US capable of not only making the replacement parts but also with installing them and calibrating the system after installation.
Describe the due diligence made to locate other possible sources including communications with other universities, communications with similar providers, web searches, yellow page searches, review of advertisements and trade publications, etc.
