Provide a basic description of goods/services to be provided:
Provide forensic odontology services for the purposes of identifying decomposed, skeletonized or charred remains. Yearly amount is projected at $55,000 based on FY18 spending on this vendor. Services to be provided for four (4) years for a total of $220,000.

Why is this purchase needed?
It is critical to obtain positive identification of remains that come to our office, so that families can be notified and law enforcement can know exactly who the decedent is. In the case of decomposed, skeletonized or charred remains fingerprints are not obtainable. DNA testing takes far too. Comparison of dental records is the fastest, most cost-effective way to obtain a positive identification of remains.

II. BASIS FOR SOLE SOURCE PROCUREMENT. CHOOSE APPLICABLE BOX(ES) AND PROVIDE ADDITIONAL INFORMATION, AS REQUESTED:

- Proprietary item, technology or service only available from the proposed vendor. (Check box and describe proprietary component)

- Compatibility requirement with existing item, technology or service. (Check box and describe compatibility requirement)

UNM Proposed Sole Source Form – Rev 6/14/13
☐ Renewal of support/maintenance/subscription of software, technology or other intellectual property. (Check box and describe)

☐ Other Basis for Sole Source: Please describe below:

Dr. Loomis is the nationally-renowned forensic odontologist who happens to live and work in Albuquerque. He has provided forensic odontology services for the OMI for over 30 years. He is responsive and available to provide identification through dental record comparison whenever called.

In addition, Dr. Loomis is the only active diplomate of the American Board of Forensic Odontology in New Mexico.

III. SUPPLEMENTAL DETAILS. PLEASE PROVIDE ADDITIONAL INFORMATION AS REQUESTED BELOW:

Describe in detail the unique capabilities of the proposed vendor’s goods/service and/or personnel performing the work and why this constitutes the only source. Focus on what is unique about the goods/service and why no other vendor could meet your needs.

Dr. Loomis received his dental degree from the University of Missouri at Kansas City School of Dentistry in 1972. He completed a one year general practice residency with the U.S. Public Health Service at the Alaska Native Medical Center in Anchorage, and then spent two years on active duty with the Indian Health Service. He opened his general dental practice in his hometown of Albuquerque in 1975, which he maintained until 2002.

All of his professional activity is now devoted to forensic odontology including investigations, research, teaching and consultation. He received his formal training in forensic odontology at the Armed Forces Institute of Pathology and the University of New Mexico School of Medicine, and has been a forensic odontology consultant for the New Mexico Office of the Medical Investigator (NMOMI) in Albuquerque NM since 1976.

He is certified by the American Board of Forensic Odontology, a Fellow of the American Academy of Forensic Sciences and a member of the American Society of Forensic Odontology. He is the founder and director of the New Mexico Mass Disaster Dental Identification Team, a forensic odonatologist for DMORT Region 6 and is the NamUs SW Regional Forensic Odonatologist.
As well as his consultative and research work at NMOMI, he presents the annual odontology course to the Forensic Pathology Fellows at the University of New Mexico School of Medicine and lectures to deputy medical investigators, state and local government agencies, dental societies, and university and high school students on forensic odontology. Dr. Loomis has been qualified as an expert witness in New Mexico and Texas.

Dr. Loomis is currently the President-Elect of the American Board of Forensic Odontology.

Describe the due diligence made to locate other possible sources including communications with other universities, communications with similar providers, web searches, yellow page searches, review of advertisements and trade publications, etc.
